BRINGING TECHNOLOGY
TO THE CLASSROOM

ABOUT US

Established in 2007, we are a professional IT hardware, software and managed solutions provider specializing in new and professionally refurbished equipment and innovative technology solutions at a significant cost savings to our customers. With Nationwide coverage, our primary clients are schools and businesses that see the value in a high quality products and world-class customer service, while working with limited resources. We pride ourselves on stretching your technology budget to accomplish goals you didn't think possible.

Our innovative business model features our product sourcing, our sister firm ER2 – Electronic Responsible Recyclers provides IT asset disposal services for large Fortune 1,000 companies. As a result, Revive IT customers reap the benefits of the lower cost of equipment acquisition and enterprise grade technology at a fraction of the brand new cost. We also provide brand new equipment as we are Dell, HP, Lenovo, and Cisco resellers. We are a Microsoft Authorized Enterprise and Education partner, as well as a Google for Education partner. Therefore, whatever platform or technology you are looking for, we can provide it, but more importantly we provide free consulting to find the best solution for you.

Meet the Owners...

Rick Krug
Owner and Managing Partner

Rick grew up on a farm in Wisconsin where his adventurous spirit was fueled at a young age. From running a paper route for 5 years during elementary school to owning his own vending machine at the age of 13, Rick developed his entrepreneurial skills early. So much so that he was able to fund his own trip across Europe after graduating from high school.

After spending 17 years in the automotive field, Rick was brought on to the Gold Circuit team by pioneer in the electronic recycling industry, Jim Greenberg. There he apprenticed under Jim and built out the entire infrastructure of the company's marketing department with a focus on the online sales market and platform. Eventually Gold Circuit was acquired and in 2007, Rick decided to establish his own business, Nationwide Surplus, as a worldwide online reseller of surplus goods, which quickly became a premier provider of refurbished technology. As business grew over the years, Rick partnered with Chris Ko in 2011 to create Revive IT which would provide technology and support to schools and businesses.

While Rick has been heavily rooted in Arizona for the last 25 years, he has headed the development of Revive IT's eastern hub in Memphis, TN for the last 2 years.

Chris Ko
Owner and Managing Partner

Chris has over 15 years of experience in growing and optimizing businesses for sustainable success. Prior to Revive IT, Chris was a principal at Inlign Capital Partners, a growth-stage private equity firm focused on investing in emerging markets and technology. Before Inlign, he was a senior associate at Grayhawk Venture Partners, an early-stage venture capital firm investing in a wide-variety of industries including: biotechnology, semi-conductor, consumer products, business services, software, green technology and medical services. In his earlier career, Chris has worked for SmithBarney, Intel, and the Hilton Corporation.

With a heart for accessible technology, Rick and Chris co-founded Revive IT with the mindset to build a socially responsible company both within their company walls and outside of them. Through the rapid growth of Revive IT, Chris has had the opportunity to serve the community in many capacities. He currently serves on the Small Business Ambassador Committee to the US Congress, Electronics Committee of the RIOS and ISRI Board of Directors, Advisory Board of the Arizona Charter School Association, and the Corporate Advisory for the East Valley Institute of Technology.

SERVICES

WARRANTY OPTIONS

We provide 1 and 3 year hardware warranties on all business and/or educational organization purchases. These warranties provide protection in the event of hardware failure unrelated to accidental damage. These warranties include any parts, labor and shipping costs associated with the repair.

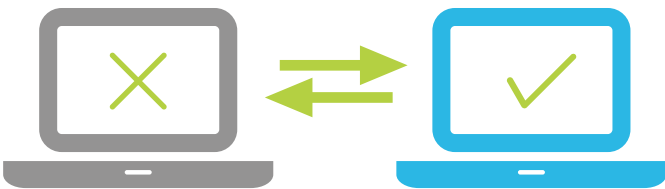

EQUIPMENT INSTALLATION

Purchasing equipment is one thing, but getting everything set up or switched out is another. At Revive IT we are able to efficiently set up your new systems on-site and ensure a successful installation. We have the tools and knowledge needed to make your setup as seamless as possible.

HOT SWAP PROGRAM

With services like our Hot Swap Program, it's easy to see why so many corporations and education organizations choose Revive IT. On top of your order fulfillment, we provide additional units that are configured to mirror the equipment you have purchased. Should a laptop or desktop fail at any point, it's 'business-as-usual' by switching out a "Hot Swap" while your computer is repaired by Revive IT. No waiting.

CREATIVE CONSULTING

We provide creative consultation to help fulfill your unique organizational needs and dreams! We recognize that every business is different and it takes thinking outside of the box to achieve some of the IT goals you may have. Our creative experts will explore all the possibilities and work closely with you to develop an attainable plan. Things that seem out of reach may be closer than you think.

SERVICES

IT SUPPORT

If you already have equipment, that's okay! We provide the IT Support for your current set up. We work directly with your internal IT individual to ensure smooth operations and functioning equipment. There is no problem too large that we will not tackle and our dedicated rep is there to help when things aren't playing nicely.

CLOUD-BASED STORAGE & MANAGED SERVICES

More and more companies are moving toward cloud-based storage solutions. The files you need, wherever you are and whenever you need them.

However, it can be a daunting task to sift through the large amounts of services out there today. We've done the work for you and can provide the best solution based on your organizational needs and complete the set up for you.

ITAD SOLUTIONS

IT asset disposition (ITAD) is the business built around disposing of obsolete or unwanted equipment in a safe and ecologically-responsible manner. At Revive IT we accommodate just that! If you are ready to decommission your IT equipment, we are able to handle the End of Life Asset Management as well as provide attractive Asset Recovery options.

CUSTOM IMAGING

We understand buying technology for your organization can be a challenge, but setting them up can be a nightmare! We make the transition smooth. By providing you with a unit from your order ahead of time, you have the opportunity to customize and personalize that computer. We'll take that unit and mirror the settings and software across the rest of the computers in your order. That way, they are ready to go out of the box!

DELIVERY

No matter where you are, we can help!

PHOENIX, AZ

MEMPHIS, TN

We have locations in Arizona and Tennessee with over 130,000 square footage of warehouse space combined. We have the ability to handle 1000's of computers and can ensure what you need will be ready when you need it. By strategically choosing specific cities to build our business in, we are able to efficiently handle clients from across the US, Canada and even world-wide. No matter where you are, we can help!

OUR VISION

Being responsible isn't our goal, it's our essence.

We practically live this out, by providing our **Partners** with professionally refurbished equipment at a fraction of the cost.

Our **Team Members** are provided an environment to grow and model their skills and gifts to help achieve their dreams.

Environmentally responsible by practicing practical sustainable disciplines throughout our business.

Our **Community** must benefit from our actions as a member, or we have failed to do our part.

Accountable • **R**efining • **C**onscientious

An electrical Arc is caused by an electrical pulse that bridges a gap between electrodes. In the same way, in order for us to bridge the gap between our best of intentions and actually making an impact, we must ARC.

FAQ'S

You have questions...

We have answers.

Q Do you have any other services?

A We provide many services beyond providing quality equipment including; Software Solutions, Equipment Installations, Cloud Based Storage Solutions, IT Management Solutions, and more!

Q Do you have a warranty?

A All of our equipment goes through a rigorous testing and refurbishing process however our products do come with options for either a 1 year or 3 year warranty.

Q Do you only sell computers?

A We have a wide range of IT hardware and software solutions not limited to laptops and desktops. From servers and network gear to cloud storage and Microsoft enterprise solutions we have you covered.

Q Do you sell storage for laptops?

A We have a variety of mobile laptop carts available with options to charge, lock and store.

Q I'm not sure what I need, can you help?

A Yes! We want to ensure that you are set up to be successful. We offer free consultations that allow us to get to know you better and help us understand your organizational needs.

Q How much can I save buying refurbished?

A Depending on the needs of your organization, it's possible to see 50-75% in savings when you purchase refurbished equipment from Revive IT.

Q Where do you deliver?

A Revive IT is proud to deliver world-wide and offers FREE shipping for our clients located in the United States.

Q Can I order equipment in large quantity?

A Absolutely! We stock thousands of computers in our warehouses making it easy to facilitate large orders. We also have the infrastructure to Premiere-load a custom image to save you time.

Q What is a Hot Swap

A Hot Swaps are additional computers that we add to large quantity orders. These extra computers ensure that you are never offline should one of you active computers go down for any reason, just swap it out.

Q Should I really expect dedicated support?

A Definitely! We are first and foremost here for you. Our desire is not only to provide you with excellent equipment, but the support to go along with it. We want your IT experience to be seamless and meaningful.
